

Retention Specialist

Current research studies suggest that there are common factors and policies that influence teachers' decisions to enter, stay in, or leave the teaching profession. Upon evaluation of your school, Athari Learning will determine which factor could be affecting your retention and recruitment numbers and provide you with strategies and corrective measures to increase your retention.

Testimonial

I worked with Keisha for 2 years in my role as Director of Talent Acquisition for Bancroft while Keisha was the Director of our flagship High School program. Not only was Keisha a great educator and leader to her staff and student population; she was a true partner in thinking outside the box, looking at ways to create capacity, improve processes, and was willing to roll up her sleeves and partner with my team in Human Resources on initiatives to recruit and retain quality staff. It is with a heavy heart that we lose her to a new exciting opportunity where I know she will thrive and bring so many of her positive attributes to make a difference in a new setting. While I will miss her I am excited for the new lives that she is about to touch. They are so lucky to have her.

- Jonathan Lutz
Director of Talent Acquisition at Bancroft
