

Professional Development

Athari Learning has honed new techniques and approaches to keep up with methods that are constantly evolving due to technology and increasing globalization. We understand how best to educate students. Research-based practices are always at the forefront of our approach. Let's face it! Covid19 has forced educators to give their approach to teaching and learning a facelift. Whether in-person, virtual, or hybrid, Athari Learning has the expertise to assist you with meeting state standards and federal mandates. Pedagogy and Andragogy approaches are changing and we are here to help you get the results you desire and deserve.

Testimonial

Dr. Keisha Gill-Jacob is not only a Director to me she is a wonderful Mentor who has helped me grow tremendously as an educator in the High School Program. Her expertise and knowledge in management have helped me tremendously in my teaching career. Dr. Keisha has taken new teachers and helped them develop into strong educators. She is the kind of Director who allows you to make mistakes in order to become a stronger and better teacher. Her door is always open and she is always there to listen and guide you as needed. She will give you the confidence you need to tackle tough situations because, in the end, she knows you will come out a better person. Thank you, Dr. Keisha
